

# AK7610BA Hydraulic Comparator

## Product Description

AK7610BA Hydraulic comparator consist of hand pump, lead screw, shut off valve, relieve valve, transparent oil tank and output interface. It is a solid rugged structure which features it's high sealing performance and pressure rising, effort-saving and easy operating. It is an ideal substitute for the dead weight tester.

## Functions

AK7610BA provides pressure for the checked gauges. It can be widely used in power, chemical, petrol, metallurgy, metering, military industry etc.

## Characteristics

- Combination of fine stainless steel and hermetic technology in the military industry.
- It has secondary oil filter and settler. The waste oil can be filtered by this duplex tank.
- Fast connection, quick pressurizing and easy operation
- It is used for calibrating all kinds of oil gauges.

## Technical Specification

Pressure Range	(0~600)bar
Stability	0.05%F.S
Working Media	Transformer oil
Output Interface	M20 x 1.5 Female
Overall Dimensions	(L x W x H) 450mm x 420mm x 200mm
Weight	19kg
