

# LEAK SEALING BANDAGES

Leak sealing bandages are used for quick sealing of pipes from 5 to 48 cm. They are manufactured from chemically resistant material. Sealing is made by wrapping the bandage around the piping, fixing the tensioning belts that are attached to the bandage and inflating the bandage.

## Leak Sealing Bandages TB

Type		TB 15/100	TB 21/150	TB 42/100	TB 42/150
Part - No.		1910	1911	1912	1913
Dimensions	mm	150 x 1000	210 x 1500	420 x 1000	420 x 1500
Sealing area	mm	140	200	400	400
